Subject: Best Jerky I have ever had in my life!!!

To the best jerky makers ever!

I think I just had about a quarter pound of your beef jerky that was sent to Konduz Afghanistan - if you haven't found out by now, I think it is absolutely amazing!

Anyways, I heard a story about a trip one of the owners may have made to the WWII memorial and ended up speaking with one of the soldiers I worked with.

Somehow, a huge shipment of jerky came in and was distributed throughout the camp. Nearly everyone I spoke to absolutely loved it. With that in mind, may I purchase \$50-\$100 worth of your jerky for myself and the (mostly the same) guys in Konduz? Also, I would like to try some of your Venison and would possibly like to purchase some seasoning so I can make my own Jerky when I return home (if it's permitted).

Oh and on a side note, when I came home on R&R one of the things I wanted most was Venison. Unfortunately, the local butcher did not have one so even though it was not Venison, I was especially delighted.

Thank you again

Respectfully,  
Chase Johnson
